

JACQUES LEMANS

HARMONY OF TIME

SINCE 1975

The two-century history of the Jacques Lemans brand starts in 1975. Founded by Alfred Riedl, Jacques Lemans has been looking back at a unique success story. Ever since Jacques Lemans is 100% family owned and is one of the last remaining independent and owner-managed watch brands in Europe.

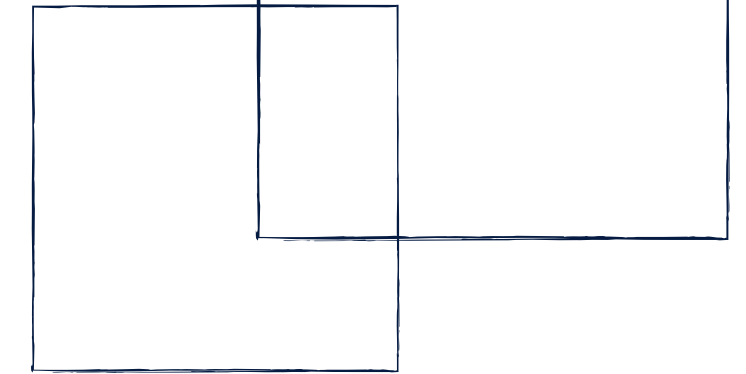

For 48 years, the company has been standing for innovation in technique and design. Outstanding know-how in development and the necessary sensitivity to new trends is the foundation for everything the Jacques Lemans brand represents.

## THE SECRET OF SUCCESS

Starting from the very first idea to rough sketches, from the final design to development, marketing and sales - Jacques Lemans is doing everything in-house. It is not only a phrase, it is lived corporate culture and therefore an integrative part of the success story.

Endless creative searching, professionalism, devotion to the business and pursuit of progress are the main characteristics of the Jacques Lemans brand.

Today Jacques Lemans is represented on every continent in 120 countries worldwide. The company is constantly striving to capture new, strategically important markets and establish an effective distribution system.

# THE MAIN COLLECTIONS OF WATCHES

HYBROMATIC  
COLLECTION

The Jacques Lemans Hybromatic technology combines the functionality of an Automatic watch with the precision of a quartz watch. The revolutionary idea consists in producing the energy for running the watch by itself and thus becoming independent of batteries. **180 DAYS POWER RESERVE**

## ECO POWER - SOLAR COLLECTION

Jacques Lemans commitment to environmental protection goes even beyond its corporate culture. With an energy concept based on solar technology, every artificial and natural light charges the watches. In combination with innovative materials like wood, AppleSkin and Mother-of-Pearls the Eco Power-Solar watches are unique masterpieces powered by the sun!
